

## Doge Driven Development

## Project: Such Podcast

*Last Updated: 11PM November 24th*

	Iteration 1
Insertions	544
Deletions	191
Files Changed	62

	Iteration 2
Insertions	340
Deletions	120
Files Changed	38

	Iteration 3
Insertions	517
Deletions	69
Files Changed	30

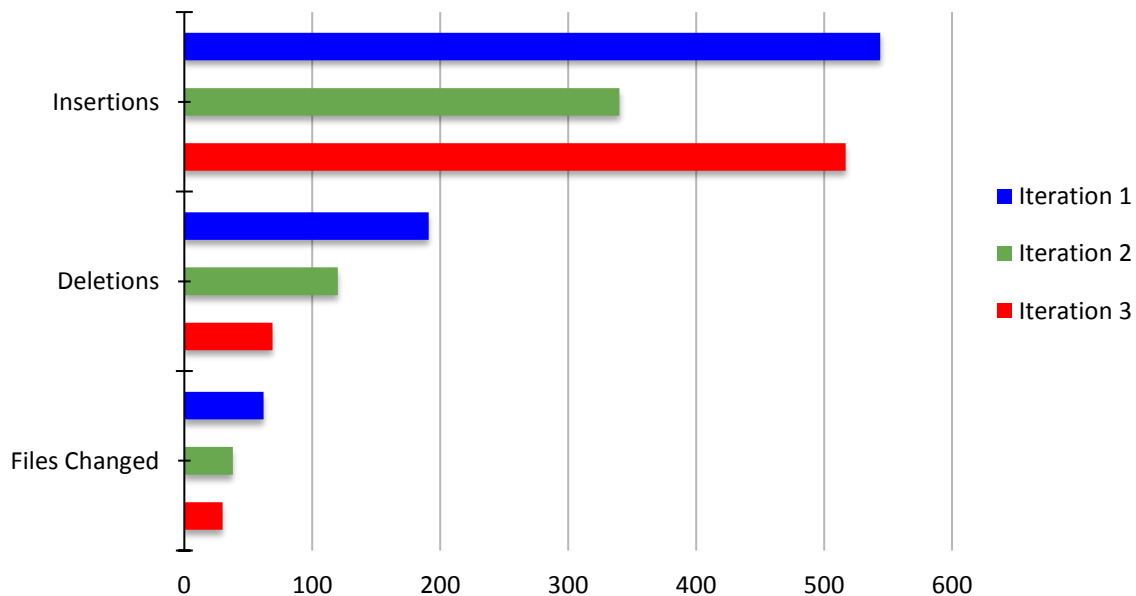

To gather our code metrics we used the command:

```
"git diff --stat commit1 commit2"
```

The first commit instance of an iteration is labeled as "commit1" and the last commit is labeled "commit2". Our last commit recorded here was Monday night.

Git stat displays how many lines of code have been added and deleted, as well as how many files changes have been made

### Code Records

#### Iteration 1 Commits

October 14th	294628d75d3df8d9e7c6f8eff5775ac62255cbd2
October 28th	fc3832bcc1e0278ada203550a23c8704d8991359

#### Iteration 2 Commits

October 28th	01205b618a6a95373dbec69107e65c1394af04c2
November 11th	602bc20b2c4eaae4e0711c7a0ecf5b4ec5ad2679

#### Iteration 3 Commits

November 11th	cd5523e609097ee8b8d0bd941497804a9ef82995
November 25th	6e9f42aabd2ccbac049bb9849ecd932733b942e9
