Such Podcast ®

Doge Driven Development

Description:

Introducing Such Podcast, the streamlined new app for your podcast listening needs. With Such Podcast, you can connect to your favorite podcast and listen to episodes downloaded directly to your Android phone. Such Podcast's simple interface lets you skip the hassle and get right down to listening.

Features:

- No login necessary.

- Manually subscribe to podcasts via URL.

- Manually download podcast episodes directly to your phone.

- Download the latest episodes for all your podcasts with the push of a button, or save space by updating only the podcasts you choose.

- Save podcast episodes for later or delete them as you download new ones.

- Lack of automatic downloading allows you as the user to have control over what is downloaded and when.

- A simple, easy, and organized Android interface without all the things that get in the way of listening to your podcast.
